

**Remarks/Arguments:**

Claims 1-7 have been cancelled as they were elected in the prior filing in response to a restriction requirement.

Claims 22-28 are new. That the reference clock source is built within an integrated circuit is supported in the originally filed specification in multiple places including page 14, lines 1 and 2.

Please direct any questions or comments to the undersigned attorney preliminary amendment.

Respectfully submitted,

Date: October 28, 2003
